

EV, EC, EM

- 26. Tumble Swirl: side ports and vertical ports.
- 27. Tuning of individual inlet and exhaust systems.
- 34. Optimum gas velocity at inlet.
- 37. Determination of Thermal and Volumetric Efficiencies.
- 47. The Ferrari SOHC V12 inlet limitation.
- 54. Combustion Chamber Shape and Efficiency.
- 80 The FVA and DFV and "Tumble Swirl".
- 80B. "Barrel Turbulence" aka "Tumble Swirl".
- 83. Exhaust resonant speed.
- 86. The mid-1971 Tyrrell improvement.
- 100. Mercedes-Benz experiments with variable-length inlet tracts.
